AUDITOR'S REPORT

This is to certify that we have examined the books and other records of the Selectmen, Tax Collector, Trustees of the Trust Funds, Town Clerk and Highway Agent; also the bank statements, cash book and other financial records of the Treasurer of the Town of South Hampton for the fiscal year ending December 31, 1967 and that we find them correctly cast with vouchers for all bills paid.

Respectfully submitted,

SOUTH HAMPTON TOWN REPORT

LIBRARY TRUSTEES REPORT

Once again we come to that time when we look backward and survey the past year's activities. During 1967 your Library Trustees continued to work with Mrs. Fraser, Librarian, to expand the facilities and services of the Library. Physical improvements include the following items: 1. A bookdrop installed in the first floor window to assist borrowers in returning books when the Library is closed; 2. A four-drawer vertical file for ready-access filing of photos, pamphlets, papers etc.; 3. Library floor sanded and refinished using funds budgeted by the Town and hard labor provided by Mr. Francis Smith; 4. A new carpet at the foot and head of the stairs to help keep the new floor clean. The Services area includes the following: 1. 147 new volumes purchased at a cost of \$547.00; 2. A total of 1408 books borrowed from the State Bookmobile during its 4 visits to our Library; 3. Continued evaluating, weeding and improving of the Book Collection; 4. Assisted the South Hampton Historical Committee with books and other reference material.

For a moment let's look again at the books purchased figures. It might be interesting to note that \$68.00 in 1937 bought 96 books, \$79.00 - 48 books in 1947, and \$130.00 - 52 books in 1957, thus the price per book rose from 72¢ each to \$1.65 to \$2.50 to \$3.70 during this period.

We would like to remind everyone that the Library Building Fund received a Gift of \$20.00 in 1967 and now totals more than \$500.00. Any contributions, large or small will be gratefully received.

We extend thanks to all who helped the Library Program with gifts of money, time, equipment and books.

Respectfully submitted,

At this time as I have in the past I would again like to thank all persons who worked along with the department State Police, Sheriff's department, Local Chiefs and officers of all bordering towns, also Amesbury departments, both Police and Ambulance departments, and especially Lloyd Currier for maintaining our radios. Again this year radios have proven useful in many ways. Last year I asked for one unit. After talking with Lloyd Currier and Selectmen, we purchased two used and rebuilt General Electric sets which were picked up and installed by Lloyd at no cost to town. These sets were in operation in June, one in William Brousseau's car and the other unit in Robert Livermore's car, making a total of three exchangeable General Electric Sets. The sets are insured and have given no problems at all and are an added asset to the town. We have had our share of accidents, of many miscellaneous calls. The department has worked many long hours, most of them when the town is sleeping. Again this year we have given free service to all town activities as we have in the past. We have to the best of our knowledge and ability endeavoured to serve you, the taxpayer, courteously and for the best interests of the town.

Thank you,
The Police Department
John Santosuosso, Chief

REPORT OF FIRE CHIEF

Your fire Chief reports seven fires in 1967: two Auto fires, one chimney fire and four grass fires. Amesbury was called for all fires. We had no house fires this year. Thanks for your support in 1967.

Albert E. Gray, Fire Chief

**REPORT OF THE FOREST FIRE WARDEN
AND DISTRICT CHIEF**

This year of 1967 will go down in history as a wet year although the early spring was dry and windy. During this time, we had many fires, unnecessary fires caused by carelessness and disregard for the common-sense fire laws and regulations. This lack of responsibility on the part of a few people hurts everyone. Let's work together to prevent the start of those unnecessary fires by:

1. No burning between 9:00 A.M. - 5:00 P.M. and then only with a permit from the Forest Fire Warden.
2. Take all debris and waste to the town dump.
3. Keep a clean, safe town dump.
4. Urge a close supervision of children in regard to use of matches.
5. Exercise care with smoking material - Use the ashtray.

REPORT OF THE PLANNING BOARD

In this year of 1967 we have organized with two new members. Mr. Morton Melvin taking Mr. George Coorssen's seat and Mr. O. V. Merrill taking Mr. Alvin Dugar's seat. Mr. Calvin Eaton taking Chairman from Mr. Albert Gray and Mr. Morton Melvin taking Secretary from Mr. Coorssen. To our wish and pleasure the Selectmen have attended most of our meetings and hearings. We have studied subdivision laws from all over the state and have condensed them into our present by-laws which after correct procedure have been adopted by the town and board. We realize the need for some type of zoning and will for the present accomplish this need through our present by-laws, changing and adding each year. By-laws are changed through meetings and public hearings so the people can be heard on proposed changes and issues. These are your laws and they govern you, the people. Your planning board asks your help and cooperation.

Thanking you for your trust to serve you,

Chairman Calvin Eaton
Secretary, Morton Melvin
Member, Horace Cressy
Member Albert Gray
Member, O. V. Merrill

SOUTH HAMPTON TOWN REPORT

REPORT OF THE CONSERVATION COMMISSION

Members of the Commission have attended several state and county meetings called to assist new groups make plans and establish guides for the needs in each community. The sponsorship of the Society for the Protection of New Hampshire Forests and of the Rockingham Rural Area Development Committee has brought much valuable material and direction to the attention of local members.

Plans are underway to conduct a survey of the town's residents to obtain their advice, interest and support. This survey is drawn up and the results are analysed by the Cooperative Extension Service of the University of New Hampshire. Resource inventories and guidelines for projects, as well as data about any possible funds available, are provided after this survey is completed.

At that time the Commission will call a public meeting to give the townspeople an opportunity to meet and discuss future action. We must plan now in order to protect and improve our environment in this time of change, growth and progress.

SOUTH HAMPTON TOWN REPORT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the members of the South Hampton School Board:

I respectfully submit to you my second annual report in the South Hampton School District.

One of the most complex tasks facing any educator in today's world is that of attempting to cope with change. The changes are coming at us with such rapidity that it is difficult to understand change let alone try to control it.

One significant change and one which all of us definitely understands clearly is the mushrooming size and complexity of the education enterprise. Nationwide the facts are staggering. This Fall, for instance, there were 57 million children and youth in school. This is over one-fourth of the population of the United States! Over 44 million were in public elementary and secondary schools. and, even more startling, the annual increase since 1960 has exceeded one million every year.

Certainly these facts will cause some eyebrows to stretch upward. The various and several ramifications of these statistics poses many a problem across the Land especially to those closely related to the educational arena. What are some of the implications one might ask?

1. Children now come to school younger and stay longer than ever before in history.

2. The educational level of achievement has shown a sharp and unmatched jump forward, from $8\frac{1}{2}$ years in

SOUTH HAMPTON TOWN REPORT

1940 to an increase of 12 years in 1970, it is estimated.

3. Giant strides in school district reorganization have been accomplished. Recent figures show that the nation has consolidated its 127,244 school districts into 23,000 in a short 30 years. It should be pointed out here that this consolidation was done NOT to save money but to EDUCATE better and more effectively.

4. We must be careful that bureaucracy does not hamper our creativity in education. The mere fact that we are so big should not dampen a teacher's willingness to try out new methods and techniques, study research findings, and to pattern their methods to meet the needs of the local student.

5. School facilities are not keeping pace with the surging enrollment.

6. Fewer and fewer of the brighter college graduates are entering the teaching profession for several reasons chief of which is the salary being offered, although the salary structure is showing marked improvement.

7. There is a growing militancy amongst the teacher group. They are being better trained at the negotiation process than are the administrators and school board members. Teachers are concerned with over-sized classes, duty-free lunch periods, fringe benefits equal to those being paid other town employees, to mention just a few.

8. Education costs money. Public expenditures for education at all levels now approximates fifty billion dollars per year. In 1955 these expenditures were approximately eighteen billion.

This is a year of decision for us in South Hampton. Our school facilities have reached that point of no return.

South Hampton is on the outer edge of a potential school housing problem. The possibility of community growth and expansion could bring us face to face with a classroom shortage. The fact that there is land available for housing developments in South Hampton makes this situation more acute. A mere in-migration of five or six families with children of school age would render us a problem. Recently our State Board of Education endorsed a set of "Guidelines and Recommendations for N.H. Public Elementary Schools." A section of this report deals with recommended public elementary school organization. This document urges a pupil-teacher ratio of 25 to 1 and one teacher for each grade level. The board members are aware of this problem and are attempting to gather all necessary facts and figures to hopefully arrive at some solution. It is not an easy task believe me.

It was unfortunate that a replacement for Mrs. Goldthwaite could not be found in order that we could continue to offer a school lunch program at the Barnard School.

I must salute the classroom teachers for their efforts from day to day on behalf of the children they serve. A good school system is dependent upon the quality of its teachers.

Adequate salary schedules for classroom teachers have been the topic of considerable concern by school board members. This is a serious matter and should not be thought of lightly. New Hampshire is in the midst of an acute teacher shortage. It is most difficult to find qualified staff members willing to teach in our communities at the present salaries being paid. We are geographically situated in a difficult area with the higher paid positions just a few miles over the border. In order to keep the staff we have at present there must be a major upward adjustment made and this will be the year for it. South Hampton does not stand unique in this dilemma for this problem is being dealt with all across the state. Within a week or so there will be a full-scale investigation of educational problems existent in this state. Of course, you and I realize the crux of the problem is money and where it comes from. Local communities in New Hampshire are now supporting education at the highest percentage rate in the nation, while state support leaves much to be desired. In the latest ranking, New Hampshire is 49th in the nation when one looks at state support for public schools. The local New Hampshire communities contribute 84.3% toward the cost of education. This is the highest in the United

States. It will be unfortunate but inevitable for some communities in this state who will choose not to deal with the teachers equitably. Time alone will tell.

1967 has been an active year in studying the school curriculum. This will be the case for many years to come. since there are so many changes taking place with unbelievable rapidity. Many of these changes are finding their way into classrooms via teaching methods, techniques, skills and procedures. It is commendable that that study groups first are able to define problems; secondly that they strive to arrive at solutions. Curriculum study takes place after the children are dismissed. Some of it takes place into the late evening hours. Several school systems put teachers to work during summer months to accomplish this task.

During the course of the year among other things my duties take me to classrooms observing teachers and children busily engaged in the teaching-learning process. It is rewarding indeed to be present to witness a child who, after a failure or two, finally reports that he has "caught on" to some important skill. Equally rewarding to me is to observe effective teaching. I find that we have teachers who show interest in wanting to improve their instructional methods.

In conclusion may I add that my association with the South Hampton school has been most rewarding to me. I am pleased to be playing a part in shaping your educational system.

Respectfully,

Paul L. O'Neil
